DESCRIPTION OF THE MODALITY OF ADULT EDUCATION : Aims of the modality, main contents, structure of the area/course, characteristics of the target group...

It was a supervision, a tutoring with aims to produce a port folio with activities ICT to validate a certificate of 9 basic education level.
The structure of the course was a tutoring with the help of the teacher to the student with open office software.
It was for only one person , in unemployment , who wanted to learn to get more possibilities to obtain a job in the futur.

DESCRIPTION OF CLASSROOM ACTIVITIES : Age of the students, description of learning activity, strategies/methodologies of adult education followed by the teacher, other aspects...

The student is 51 years old; she had to do activities with open office software; she worked with spreadsheet and internet to look for picture and copy-paste in the document.
The methodology of the teacher was to oversee et to help the person.

YOUR ENROLLMENT IN THE ACTIVITY – Was it interesting for you or not? Why? How was the experience?

- For me (Isabelle) it was interesting to see how B Cordeira did to deal his help and his tutoring : sometimes, he was behind his own computer , sometimes he was behind her with her to show and to explain on the screen of her computer.
- For Ferdinando and Alphonso , it was interesting to see the methodology of learning and support that the teacher does for the student.

YOUR OWN COMMENTS

(Isabelle) It must be difficult to deal with the 2 issues of his activity : a) train the person; b) realize the report.

(Fernandino) : it was a nice experience ; the methodology used for learning in adulthood was very interesting.

For Alphonso, it wasn't a good methodology: the teacher should do exercises before.
