

Constitution of groups

The leader of the group

You have to introduce yourself to the group and convince one person to join your group.

You will have to organise a short video to introduce each participant. You are responsible for the organisation of the space.

Introduction of participants through videos

Use your smartphone, or tablets to:

- Introduce the members of your group
- Free to chose your methodology: interview, speech...
- **Duration of the activiy : 30 minutes**

All the resources will have to be saved

Authorizations

When you record videos or take pictures, you have to get signatures from the person to inform them what you intend to do with the shots, or pictures. We have prepared authorizations for the DILABS team for the week. Check with the participants of your group that they have signed the authorization.

If you intend to publish some pictures, or short videos on Facebook or Instagram, please make sure you inform them and that they agree.

By signing the document, you agree with the policy for the respect of private life.
