Your enrollment in the activity

- It was interesting for me because we can see the two groups of people that need learn Portuguese and their reasons.
- The experience was very good, because everybody learn hopefully, specially redirees.
- The teacher was very dynamic and very close to the trainers. The trainers are very motivated.

Your own comment

- Teacher want to help her students in their real live and explain them all doubts that they ask her about Portuguese in real situations.
- Two Proposals to improve are the light up the screen makes difficult the vision and the words in the screen could be bigger (specially for retirees).
- We like a lot that teacher uses the Spanish to help learn Portuguese to her students because Spanish is more similar to the Italian than Portuguese.

Thank you
